To Whom It May Concern:

We have retained the services of the TPS Group of Companies for 2 years primarily in the area of recruitment and contract labour. Having dealt with several organizations of this nature in the past, I can say with 100% confidence that this firm is our supplier of choice.

Staff and management in the TPS Group have been professional, courteous, and have truly taken the time to learn and understand the culture and nature of our business. As a result, the recruits that they have provided to us are quite suitable for integration into our organization. Many of their contract employees have attained full time positions with our organization as a result.

I admire the degree of service that our Account Manager gives us week to week, regardless of whether we are actively seeking recruits or not. It is obvious that customer satisfaction and service are very important to them, as they are to us. This common vision of similar core values has helped us to increase our work volumes substantially during the last two years.

We are very pleased with the services provided by the TPS Group of Companies, and intend to keep using their services in the future.

Sincerely,

Steven Kosowan
Vice President – Administration
