Dear Kevin,

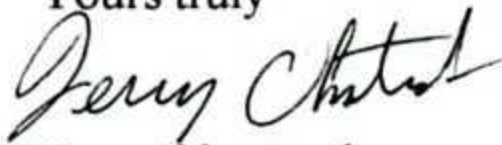

I would like to take this opportunity to commend and thank the TPS Group of Companies for your exemplary service over the past 6 years in supplying and managing a workforce of over 100 highway drivers for our fleet.

TPS has consistently met our driver supply demands even when little warning has been given and the quality and expertise of your management, staff and drivers has generally exceeded our expectations.

It is a pleasure to be working with a supplier who understands our business and sees the relationship as a partnership formed to fulfill the needs of our customers.

Looking forward to many more successful years.

Yours truly

Terry Olmstead
